Rome, February 22.—The latest news concerning the new malady is that at Reggio a man named Emilio, after having been in bed several days with influenza, was attacked by a lethargic sleep. The doctors have lethargic sleep. The doctors have tried in every way to arouse him, but without success. He is now only kept alive by injections of liquid food. Near Pavia a girl, after two days' illness from influenza, fell into a pro-found sleep and now gives no outward signs of life. It is evident that her heart is still heating, but very faintly Barbour's Salmon Net Twines.
